## 👤 Summary

Multi-skilled professional with experience in UI development and DevOps automation, skilled in React, Python, Linux, and Docker. Hands-on in building responsive web interfaces and automating infrastructure monitoring and reporting. Familiar with CI/CD, AWS, Azure, and production troubleshooting, seeking roles in Development or DevOps.

## 📊 Skills

**Front-end Development:** HTML5 • CSS3 • React • Responsive Web Design

**DevOps Tools:** Git • Jenkins • Docker • Azure/AWS Fundamentals

**Programming & Scripting:** Python • JavaScript • Bash • API Integration • SQL

**Infrastructure & OS:** Unix/Linux Administration • Networking • Troubleshooting • Monitoring (ScienceLogic & Dynatrace)

**Soft Skills:** Problem-Solving • Collaboration • Documentation • Logical Thinking

## 🎓 Education

**University of Mumbai**

B.Sc.(IT)

2019 - 2022

## 💼 Experience

**Capgemini**

**SOFTWARE ENGINEER** Aug 2022 - Present

### Associate UI Developer:

Worked as an Associate UI Developer on a learning project, gained hands-on experience in front-end development using HTML, CSS, JavaScript, and React. Contributed to building responsive and user-friendly interfaces, focusing on modern UI design principles and best practices. Collaborated in a learning environment to apply design thinking and improve user experience across web applications.

### DevOps Monitoring Engineer

- Monitored infrastructure and applications using Dynatrace, ScienceLogic, Python, and Linux to improve system stability and incident response.
- Used Dynatrace APM & ScienceLogic for performance monitoring, alerting, and basic root cause analysis.
- Created and maintained monitoring dashboards for real-time system and application health.
- Supported Docker-based services and Service-now integration, resolving Linux and container issues.
- Automated reports using Python, SQL, and Excel reducing manual work.
- Hands-on with Linux, Docker, CI/CD concepts, and AWS & Azure fundamentals.

## ✿ Certifications

- ❖ AWS Cloud Practitioner Essentials [[Certification](#)]
- ❖ Learn Complete Front-End Web Development Course (2023) [[Certificate](#)]
- ❖ Agile Software Development [[Certificate](#)]
- ❖ SL1 Professional Certificate [[Certificate](#)]
- ❖ SL1 Expert Certificate [[Certificate](#)]

## Projects

### **Infirmary App – Online Doctor Consultation [[GitHub](#)]**

*Android Studio, Java, Firebase*

- ❖ Built an Android app for doctor-patient consultations with chat and appointment features.
- ❖ Used Firebase for authentication and real-time data.

### **Personal Portfolio Website [[Click](#)]**

*HTML, CSS, JavaScript*

- ❖ Created a responsive website to showcase skills and projects.
- ❖ Focused on clean UI and smooth navigation.

### **Coditor – Online Web Code Editor [[GitHub](#)]**

*HTML, CSS, JavaScript, React*

- ❖ Developed a live web code editor with syntax highlighting and real-time preview.
- ❖ Built using React for dynamic UI components.
